Subject: Contractor Assistance in Region 1

Hi Rebecca,

Following up with our regional call last week, I would like to put in a request for contractor assistance in order to conduct an industrial pretreatment audit in the region.

The audit would be of the Massachusetts Water Resource Authority (MWRA) program in Boston, MA. The audit would consist of file reviews, etc with a final audit report and could be done virtually based on timing if required. There is no immediate rush to perform the audit so this could be done in person later this year if social distancing guidelines allow as well.

At this time, there is not a request for any additional document review (ie. SUO or ERP) or industrial user inspections.

I do believe there were \$5k in regional funds redirected to HQ for pretreatment activities this year as well.

Please let me know if you need any additional information.

Thank you

Jay
